Program 9:00 a.m.*

Believe

The foundation to success is the "Believe" Attitude. We all want to be successful in everything we do - whether it's work, family, church, hobbies or whatever. But do we know how to be successful and how to "Believe"? During this interactive presentation, Sydne will dive deeper into what it takes to develop the "Believe Attitude". Is it something I am born with or can I really learn it? With media clips, demonstrations, chocolate chip cookies, audience interaction and real-life examples, this presentation promises to be both entertaining and uplifting

Presentation by: *Sydne Jacques*

Sydne has been nicknamed "The engineer with a personality" and has been the owner of her own business, Jacques & Associates for 18 years. She was raised on a dairy farm in Montana, is a certified facilitator and also CEO of the Rural Water Technology Alliance, a non-profit organization she founded. She has worked as a design team leader and project engineer for the U.S. the Bureau of Reclamation. Sydne has four children, has run two marathons, loves to play basketball and jet ski. Sydne received the 2011 and 2013 Utah Best of State Awards in the category of Education Volunteer. She spends hours in the schools and is passionate about a leadership program she has developed for 6th grade students - it is called GALAXY - growing America's leaders and eXcelerating Youth!

After the presentation, please join us in a service project for "The Road Home"
