

ASSOCIATE MEMBER BENEFITS

Associate Members receive recognition on the UASD website as a sponsoring organization. The UASD website continues to increase feature-rich content for our members. As a result, the number of UASD website users is continually increasing.

The UASD has enhanced the Associate Member area. This has provided an opportunity for Associate Members to access visibility with district board members, managers, and employees; with decision makers!

Associate members may submit information to the Association regarding their company, such as the services provided, pictures that reflect services or branding, website address, contact email address, and company logo. A hotlink is established so that website users may communicate with Associate Members by simply clicking on the link. All company contact information is also available to all districts in Utah.

In addition, Associate Members are eligible to participate as an exhibitor at the UASD Annual Convention held each year in November. The majority of attendees are board members, managers and upper management. Convention exhibitors have the opportunity to network with district board members and management, and to obtain increased visibility among districts throughout the state. In addition, Associate Members who exhibit will receive recognition in convention materials. Exhibitors are also eligible to sponsor or co-sponsor a convention event depending on the level of convention sponsorship selected. Advertising opportunities are also available.

The UASD welcomes your participation. Thank you for partnering with the UASD in supporting districts throughout the State of Utah in providing important services to their citizens.
